

DESISTING FORM

(must only be complimented and sent the following form if you wish to desist from the contract)

To the attention of Seller Name, with email address _____

For the following I communicate you that I desist of my sales contract from the following product

Ordered / Received on *(strike whatever doesn't proceed)*

Name of the cosumer/user

Address of the consumer/user

Signature of the consumer/user

(Only if the following contract is in paper)

Date:

Information about the exercise of the right to desisting

Right to desisting: You have the right of desisting of the following contract in a deadline of **14 workdays** without the need of justification. The deadline of desisting will expire on the 14 workdays after you or a third party you indicate, different from the transport, acquired the material possession of the last of these goods.

To exercise the right of desisting you must, in the set deadline, notify the seller your decision to desist the purchase through the form on effect that is attached with the order delivery. The user has also the option to accomplish and send electronically the model of form of desisting or any other unmistakable declaration (postal mail or email) through the website and through contact forms. The seller will communicate you without delay in a lasting support (for instance, email), the reception of such desisting.

Consequences of desisting: In case of desisting by your part, we'll return all the received payments to you, including delivery costs (with the exception of additional costs resulting of the election from your part of a different delivery method that costs less than the ordinary delivery we offer) without any undue delay and, in any case, a maximum deadline of 14 workdays from the date you've informed of your decision of desisting on the following contract. We'll proceed to effect such refund using the same payment method employed by you in the initial transaction. However previously, we can retain the refund until having received the goods, or until you've presented a proof of return of such, depending on which condition comes first.
